SKILLS

I have a good ability to work and meet what the customers want. I can say I have the skills and abilities to create great websites that will satisfy the user experience of my client. I prefer working alone because it helps me focus on my work but I do work with others and I can say that I am a good team player when making a collaboration with other web developers. I can work under pressure to meet the deadlines.

Key Skills:

- Web development: JavaScript, HTML, CSS, Git
- Programming: Java, JavaScript
- Designs: Figma

EXPERIENCE

- none
